

Center for Information Systems Research (CISR) at the MIT Sloan School of Management

ABOUT MIT CISR

About MIT CISR

Founded in 1974 and grounded in the Massachusetts Institute of Technology (MIT) tradition of rigorous field-based research, the Center for Information Systems Research (CISR) at the MIT Sloan School of Management helps executives meet the challenge of leading dynamic, global, and information-intensive organizations.

We provide the CIO and other digital leaders with insights on topics such as digital business transformation, data monetization, and the digital workplace. Through research, teaching, and events, the center stimulates interaction among scholars, students and practitioners. More than seventy-five firms sponsor our work and participate in our consortium.
