Twitter: <https://twitter.com/inasebastian>

Ina M. Sebastian is Research Scientist at the Center for Information Systems Research (CISR) at the MIT Sloan School of Management. Her work centers on how companies unlock innovation and value through partnering in ecosystems. Ina's research on ecosystems, partnering, digital transformation, and the digital workplace has appeared in *MIT Sloan Management Review*, *Management Information Systems Quarterly Executive*, *Harvard Business Review*, *The European Business Review*, and academic outlets.

Ina is a passionate researcher with particular interest in how digital leaders effectively coordinate ecosystem collaboration to solve complex business and social challenges such as affordable healthcare, global pandemics, and climate change. She is a coauthor of the book *Future Ready: The Four Pathways to Capturing Digital Value* published by Harvard Business Review Press.

Topics for Media Interviews

- How companies unlock innovation and value through partnering in ecosystems
- How digital leaders coordinate ecosystem collaboration to solve complex business and social challenges—such as affordable healthcare, global pandemics, and climate change
- Digital business transformation
